AML-SW3-WiFi6 - Bug #3794

Bug # 3738 (Resolved): 5G Wi-Fi security=WEP still can be selected and applied with authentication: Open/SharedKey which should be disallowed when operating mode= 802.11ax only, 802.11ax-mixed,802.11ac-mixed,802.11n-mixed

802.11ac only still can select Open System, Shared Key, Open System & Shared Key with WEP40/WEP104

Description

之前 3738 解决过类似的问题
但没有考虑到11ac only 模式也不允许配置wep加密，请在帮忙修改一下相关逻辑，thanks
